

TECHNICAL INFORMATION

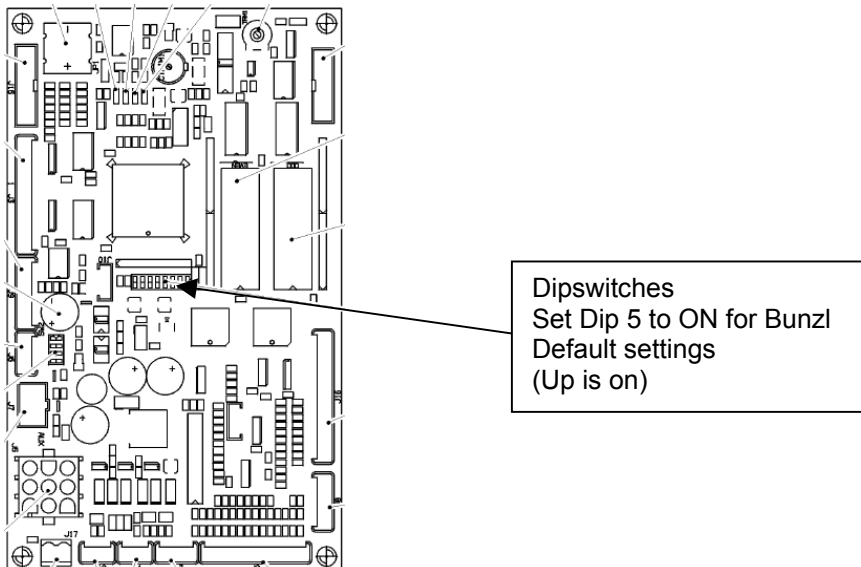

Machine Type	Zenith	Model	Bean to Cup ONLY	T.I. Number:	
				Date: 4th June 2003	
Part numbers		Not applicable		Approved By Italy	MT Rv
Subject	Bunzl default settings			ISSUED FOR CUSTOMER	
				ACTION	
				INFORMATION	X

We would like to make you aware that on the Zenith Processor board there is a bank of 8 dipswitches

If dip switch 5 is set to the on position, this gives a default value for the powder and water levels and calibration settings to Bunzl specifications

After moving dip switch 5, you need to re-initialise the machine and set it to UK and not UK2 as part of the Initialising process.

All previous settings will be re-set to default, e.g. payment system type and prices etc

Below are examples of the correct layout shown on the dose sheet

CFB set up 2 = Bunzl hot & cold Carb

CFB 02 set up 2 = Bunzl Hot only .
